

Shady Baskets & Containers

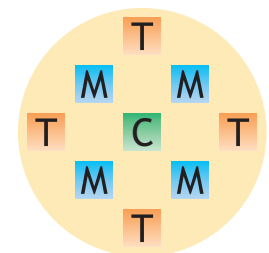

This is by no means a listing of every available plant. I have listed the ones we feel are best in shady containers but feel free to try things you see that list shade or part shade on the sign. If you have any suggestions on how to improve this sheet please let June know at springbankgreenhouses@sympatico.ca or telephone # 905-278-5964.

For a 12" - 14" POT -

Plant 4 plants around the edge spaced equally (mostly trailing)

1 upright plant in the centre if you want (not necessary)

3-4 plants evenly spaced around middle of pot (between edge and center)

Planting Notes: *If you use impatiens in your shady pots, they do need 2-3 hours of sun either early in the morning or late in the afternoon. If your location is full shade, you are basically limited to tuberous begonias and ivy. When planting tuberous begonias, make sure to plant with points of leaves facing out because the flowers face the same direction as the leaf points.*

June Vaillancourt

Trailing Plants (T)

Foliage Only

Ipomoea Lime, Blackie, Caroline
Vinca Regular
Vinca Wojo's Gem
Coleus Burgundy Wedding Train
Lysimachia Goldilocks

Middle Plants (M)

Foliage Only

Oxalis Charmed Wine
Oxalis Charmed Jade
